

Are generic anti-seizure drugs the same as brand?

Be part of an **EPILEPSY** Research Study

- **Are you over 18 years of age?**
- **Have you had at least one seizure in your lifetime?**
- **Are you comfortable with blood draws?**
- **Would you be willing to spend a whole work day in the hospital?**

If you answered yes to these questions, you may be eligible to participate in an epilepsy research study. The purpose of this research study is to compare different forms of lamotrigine in patients with epilepsy. Subjects will be compensated for their time and for accommodations for the night prior to the study date.

**Please call the study coordinator at 215.662.7227
or 215.614.0520 for more information.**

This study is being conducted at:
Neurology Department
Hospital of the University of Pennsylvania
3400 Spruce Street • Philadelphia, PA
