

The EFEPa has been providing a high-quality camping experience for youth with epilepsy through Camp Achieve since 1997. We look forward to another year of building strong relationships and helping kids to discover their many unique qualities. Epilepsy may be something our campers have in common but it need not define them!

This year's camp will be held from Sunday, August 12 – Friday, August 17.

Completion of a Camp Achieve application does not guarantee acceptance. All applications are reviewed by the EFEPa staff and the Camp Achieve Medical Review Committee. There is no cost to submit an application, however if accepted there is a \$350 fee. Scholarships are available to cover the cost. Contact us for more details.

Applications for Camp Achieve 2018 are now available at www.campachieve.org or by going directly to app.campdoc.com/register/efep. We utilize a system called CampDoc. Here are a few tips to help you with the application process:

- **If you applied in 2016 or 2017, CONGRATULATIONS! A profile already exists for your camper!** Log into app.campdoc.com/register/efep with the same email you used previously. If you did not save your password, you can reset it using the "Forgot your password" link. If you are not sure what email address you used, please contact us (camp@efepa.org, 215-629-5003) or the CampDoc support line via [734.636.1000](tel:734.636.1000) or help@campdoc.com.
- Register for the Camp Achieve Camper session and get started. Many of the questions now only require you to review and approve your answers from 2017. You will need to reenter some parts of the application. Please ensure that all information is up-to-date to allow for accurate review and care for your child at Camp Achieve 2018.
- **If you are a NEW CAMPER, you will be creating a profile on CampDoc.com.** This profile will house the camper's application and important medical information needed for Camp Achieve. You are able to save your application if you need to take a break. All information entered is confidential. Please be sure to save your password!
- Add notifications@campdoc.com to your email contacts or to the "safe senders list" for your email browser. There will be periodic communications from this email address related to the status of your application.
- Once you register for the appropriate session (**Camp Achieve Camper**), you will have access to the Health Profile section of your application. No applicant can be considered until this information is complete. To facilitate our timely review of your camper's application, please have all information entered no later than **May 15, 2018**.
- After we receive your camper's application, we will send a form to your camper's neurologist. Please advise your camper's neurologist that they will be receiving this form from the EFEPa and that your camper's application will not be considered for review until this form is submitted.
- **DO NOT PURCHASE THE TRAVEL INSURANCE OFFERED!** We were unable to deactivate this feature of the site. Click **NO THANKS** to complete your registration without purchasing travel insurance. This is a third-party offer and the EFEPa is unable to offer refunds for purchase of this insurance.
- Please upload a photo of your camper to their profile. This feature is available from the main profile page by clicking on the circle to the left of your camper's name. [Instructions can be found here.](#)
- Support for the CampDoc site is available via <http://campdoc.docnetwork.org/support/section/patient/> or by contacting the Help Desk at [734.636.1000](tel:734.636.1000) or at help@campdoc.com.

Please don't hesitate to email us at camp@efepa.org or call [215-629-5003](tel:215-629-5003) with any questions.
