

Transition Workshop Series

Join us for a series of workshops focused on the needs of youth and young adults with epilepsy as they transition to adulthood

The Transition Workshop Webinar Series aims to address important topics necessary for youth and young adults living with epilepsy to **SUCCESSFULLY** navigate their transition to adulthood.

Featuring doctors, educators, and other guest speakers from the local epilepsy community, each workshop is designed to provide **GUIDANCE, DIRECTION, AND SUPPORT** for individuals living with epilepsy, as well as their families, caregivers, and support teams.

Workshops will be held both virtually and in-person, are **FREE** to attend, and are open to individuals with epilepsy ages 12-21+ and their families, friends, and caregivers.
