A Cognitive Program for People with Epilepsy

What is HOBSCOTCH?

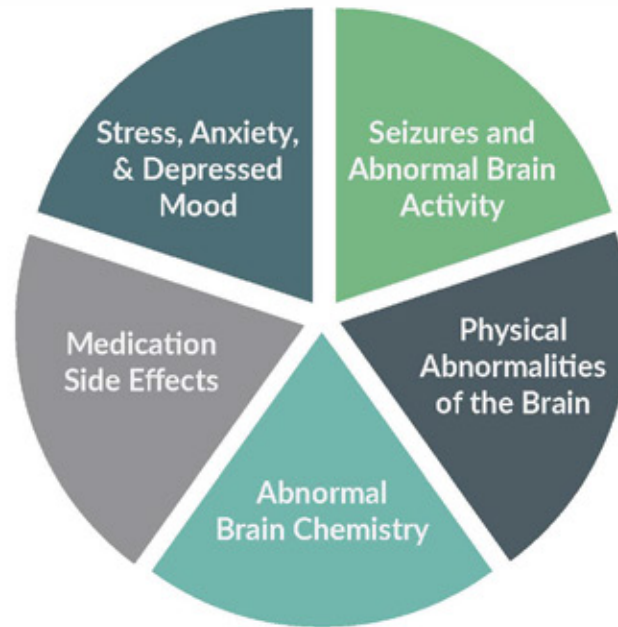

HOBSCOTCH is a self-management program designed to help people with epilepsy find ways to manage and cope with their cognitive problems in order to lead happier, more productive lives.

At this time, HOBSCOTCH is offered to adults with epilepsy at no cost.

What are cognitive problems?

Cognitive problems may include difficulty with memory, attention, thinking, and planning.

WHY DO PEOPLE WITH SEIZURES HAVE MEMORY PROBLEMS?

MORE THAN HALF OF PEOPLE WITH SEIZURES EXPERIENCE COGNITIVE PROBLEMS AND FEEL LIKE SEIZURES INTERFERE WITH MEMORY.

You Will Learn:

- How epilepsy impacts cognition and memory
- Skills to help you improve your organization, disease management, and social interactions
- Ways to reduce stress and improve your quality of life.

You Will Receive:

- One on one sessions with a HOBSCOTCH certified Memory Coach
- HOBSCOTCH Workbook
- Memory Tool Box
- Day Planner & Seizure Diary
- Relaxation exercises

Components of HOBSCOTCH:

1. Education
2. Self-Awareness Training
3. Problem Solving Therapy (PST)
4. Memory Strategies
5. Relaxation
